Your House Is On Us

From the moment you reach us to do an assessment or quotation, we will do everything possible to ensure you experience minimal disruption.

We will treat your house with the utmost care and leave your property in tip-top condition at the end of the job.

We take pride in our approach and our workmanship, which shows itself in our skilful team, modern equipment, and the best materials to ensure you get the completed job done at the best standard.

Our team will keep you updated every step of the way to ensure you are satisfied with the end results.

YOUR HOME

We believe your home is more than its monetary value. It's the building you go back to after a long day at work and where you raise your family.

Our Mission is to protect and strengthen the foundation of your home to restore safety, extend its life, enhance the renovation potential and increase the value of your property.

Our Restump, Raising, and Releveling services bring decades of experience, world-class craftsmanship, modern equipment and quality materials to give you the peace of mind that your project goes smoothly from start to finish.

OUR SERVICES

RAISING

Raise the value of your home by capitalising on extra space created, ideal for investment opportunities, among others benefits.

RESTUMPING

Jacking a house to remove existing deteriorated stumps and replacing them with a superior quality stump.

RELEVELING

Bring the property back to its original level. We utilise laser levels, packing and our expertise to relevel your property.

Additional service on request

Pre-Purchase Inspection | Ding hire/ dig out | Steel fabrication and on-site welding | Baton installation | Engineering

CONSIDER YOUR OPTIONS

Stumps can be timber, steel (adjustable or galvanised), or concrete posts that sit under your house to support your foundation. Broken, cracked, or rotting stumps can cause your entire foundation to collapse. CALL US to evaluate the best option for your house.

TIMBER STUMP

Our CCA treated timber stumps are a more traditional stumping option that can work in many soil and environmental conditions.

STEEL STUMP

Restumping with steel brings advantages due to its durability and resistance. Steel is not affected by termites or rotting and with the galvanisation process it is unlikely to deteriorate due to rust.

CONCRETE STUMP

Concrete stumps are reinforced with internal steel rods and cast in a single mould. Being a non-flammable material, they are a great choice for houses in bushfire areas.

STEEL BEAM & POSTS

A steel beam is a structural steel product made to support heavy loads. We supply and install quality steel support beams and columns to suit the weight-bearing properties of your existing home or house renovations. We also offer steel bracing.

WHO WE ARE

Austump is a 3rd generation family business restumping houses. We have decades of experience under our belt and take pride in our projects and our workmanship.

Building a strong foundation is at the core of everything we do, from house restumping, raising and releveling, to supporting the community to allow young generations to thrive through sport with support.

WHAT WE DO

From the moment you reach us to do an assessment or quotation, we will do everything possible to ensure you experience minimal disruption.

We will treat your house with the utmost care and leave your property in tip-top condition at the end of the job.

We take pride in our approach and our workmanship, which shows itself in our skilful team, modern equipment, and the best materials to ensure you get the completed job is done at the best standard.

Our team will keep you updated every step of the way to ensure you are satisfied with the end results.

Knowing whether or not your home needs restumping or relevening services is not always immediately obvious and can be stressful. These are some signs your home might be experiencing some foundation problems:

- Uneven surfaces
- Step sloping Floors
- Wall cracks
- Ceiling cracks
- Moisture/water damage
- And other issues with your floors or walls.

Don't just take our word for it. Here's what our customers think of us:

Dave at Austump was exceptionally friendly and professional with great communication. We'd received advice from a competitor before and it stunk of underhanded sales tactics, didn't get any of that from Austump they were knowledgeable and acted with integrity from quote to finish.

Had absolute confidence in Dave and his team, was very happy with the work completed, and was appreciative of the additional help in getting a dependency sorted.

Austump will be our first call if there's any future work we need done in this space. Thanks guys! **Jodie Y.**

Cannot recommend these guys highly enough!!
So professional, neat, respectful and reliable. Stress free & competitive price!+

Thank you Dave, Kerry & the crew!
Almost want to buy another crooked house just to see them fix it with easy.

Happy Rain Forest

Professional reliable and top quality work. Easy to communicate with and everything ran smoothly.. will definitely recommend
